KINETIC RACING

The OIT Kinetic Racing Team is seeking sponsorship for the 2009 season

The OIT Kinetic Racing Team has, since 2005, been racing a Kinetic Sculpture in the Arcata to Ferndale World Championship as well as the Klamath and Corvallis Kinetic Sculpture Races. These involve racing a human powered vehicle over roads, sand, mud and water. It is a great design/fabrication experience for mechanical engineering students as well as bringing excellent local and regional publicity to OIT and our sponsors.

This season we plan to again enter these three races and participate in the Klamath 4th of July Parade. We are hoping you will join us on this adventure.

Any amount of sponsorship is appreciated. The following levels of support are suggested along with the publicity we can provide for each.

<i>Sponsorship Level</i>	<i>Publicity</i>
\$400 Cash OR \$600 Supplies/Services	<ul style="list-style-type: none"> • Name Prominently Displayed on Vehicle • Name Prominently Displayed on Team Web Site • Name included in Presentations, Publicity Fliers and Reports
\$200 Cash OR \$200 Supplies/Services	<ul style="list-style-type: none"> • Name Displayed on Vehicle • Name Displayed on Team Web Site
\$100 Cash OR \$150 Supplies/Services	<ul style="list-style-type: none"> • Name Displayed on Team Web Site
